

High School Diploma

Program Outline:

The high school program comes from an accredited high school in the United States; students whom we deem eligible will have to take a placement test to be enrolled in the program

- ❖ To earn a US High School Diploma the student must earn of 21.5 credits. The teachers at the center will take you step-by-step through the lessons you need to earn your diploma.
- ❖ The electives will be decided on by the Center not the student. Parents will be involved in choosing the electives; however, the final decision will be done by the center.
- ❖ The program will take two years to complete for evening students and three years for day students.
- ❖ Students that want to go in the morning must be under 20 years old and have a learning disability.
- ❖ Students that want to study in the evening should be over 18 years old.
